

COVID-19 PPE RANGE PRODUCT PRICELIST

2020 CATALOGUE

COVID-19 PPE RANGE

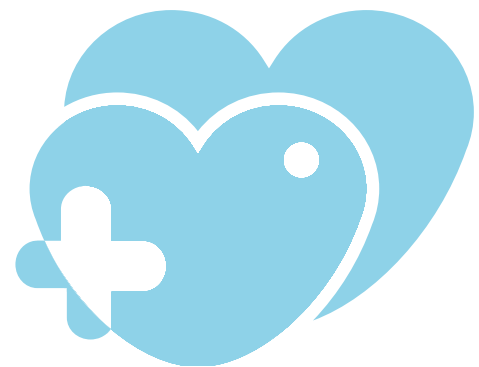

In these unprecedented times, health and safety regulations for businesses and for the public have increased in an attempt to reduce the spread of the COVID-19 Virus. The demand for Personal Protective Equipment has risen dramatically and in some cases have caused a shortage of medical grade PPE for health care workers who desperately need them.

At Brothers Toker, our first priority has always been to provide our customers with the highest quality at the most affordable prices. At times like these we continue to strive to fulfill this promise to our customers as well as to extend this promise to all South Africans. With over 38 years of experience and knowledge in the industry, we are confident that this has given us the ability to produce products that are safe, durable and affordable for all. Our goal in creating this range is to reduce the spread of the virus by providing high quality, affordable PPE for all ; help to reduce the demand for medical grade PPE to be reserved for health care workers ; and to ensure that our employees are safe and are able to continue to provide for their families.

**WE ARE COMMITTED TO
PROVIDING ALL SOUTH
AFRICANS WITH HIGH
QUALITY, AFFORDABLE
PPE.**
